

# GOV. HUGHES AND OTHER NOTABLES AT HUDSON-FULTON FESTIVAL

The United States government was officially represented at the Hudson-Fulton celebration by Vice-President Sherman, the state of New York by Governor Hughes and the city by Mayor McClellan. These, with scores of naval officers and notables from various foreign countries, were at the official stand when the Half Moon and Clermont were received officially at

ter the water parade. These snapshots were taken during the official reception. Some of the notables who can be recognized in the pictures are: No. 1, his imperial highness, Prince Kuni of Japan; No. 2, General Stewart L. Woodford, president of the celebration committee; No. 3, Governor Charles E. Hughes; No. 4, Admiral le Ford of the French fleet.

## YOUNG DUCKS.

They Have No Instinctive Impulse to Enter the Water.

It has turned out, under the searching experimentation of recent years, that much that we have supposed to be instinctive in animals is not instinctive at all. For example, the young duck proves to have no instinctive impulse to enter the water, does not recognize the element by sight and is, in short, in precisely the same situation as a chick until, by happy chance, it gets its legs wet. Wet legs, however, and the lift of the water on the body at once start up the swimming reaction, and away sails the duckling, as chickens and children do not.

The chick, on its part, has a definite instinct to peck at any small object that catches its eye. That takes care of its feeding. But the chick has no corresponding instinct to drink and would die of thirst before it would recognize water by sight alone. Drinking it has to learn for itself by pecking at dewdrops or spots of light on the surface of the water or particles at the bottom of its cup. Even the hen, contrary to general belief, proves to have no instinctive fear of the water for her offspring. A hen that has raised a few broods of ducks and seen them take to the water becomes highly distressed when a subsequent batch of chickens do not swim. In fact, hens have been reported under these circumstances to lead their chicks to the water's edge and push them in—McClure's Magazine.

## NESTS IN GULF WEED.

Breeding Place of the Flying Fish in the Sargasso Sea.

In the middle of the north Atlantic there is an area of comparatively still water almost equal to continental Europe in extent and more or less covered with floating seaweed. It was known as the Mar de Sargasso to Columbus and the early navigators and is the Sargasso sea of modern geographers.

The floating seaweed was formerly supposed to have grown near the Bahamas and Florida shores and to have drifted to its present position. It is now, however, known to grow and propagate itself where it is found. In it are found globular masses of weed containing fish eggs and known as fish nests.

Investigations show that the floating weed of the Sargasso sea is the chosen breeding place of species of flying fish. The eggs found in the nests were attributed to certain species of fish found resting on them, but careful examination of the eggs shows that they really belong to flying fish.

Apparently, however, the flying fish do not make the nests themselves. Each end of the egg of these fish is furnished with bunches of very long filamentary tendrils, and by means of these the finely divided branches of the Sargasso weed have been caught together in globular masses. The eggs may be said to have made their own nest.—London Field.

Bismarck and 3.

Bismarck had an intense aversion to 13, but a veneration for the number 3. His reasons for his predilection were that he served three masters; he was responsible for and fought in three great wars; he signed three treaties of peace; he arranged the meeting of three emperors; he established the triple alliance; in the Franco-Prussian war three horses were killed under him; he had three names (Bismarck, Schöenhausen and Lappenberg); he acquired three titles (count, prince, duke); the ancient arms of his family are a leaf of clover and three oak leaves. His family motto, "In trinitate robur" ("Strength in trinity"), was surely in itself sufficient to give a leaning in this particular direction. So closely were his feelings associated with the triple number that the caricaturists represented him with

Suffer? Oh, no! "Suffer" don't express it, but there is the PYRAMID FILE CURE. It's a Cure that comes to stay and gives one a fresh grip on things.

IT PROMISES TO CURE and keeps its word. Even to the last letter. It is made that way. This is why. And it is not expensive—within the easy reach of every one. Only 50 cents a box at your druggist, and a box goes a long way.

YOURS IS THE WORST kind and of long standing? Already tried everything you ever heard of? Discouraged? Well, rather. But the PYRAMID FILE CURE was made for just such cases. Yours is not a bit worse than hundreds of other cases that have been cured.

No wonder that our remedy is so sure that we will send you a money order. This will begin to show what enough of it will do and then you can go to your drug store and get as much as you need. It won't be more than a box or so.

DON'T PUT OFF getting rid of this terrible trouble. Of itself it is hard enough to endure, but it leads to things worse. In truth it badly disarranges the entire lower bowel tract; creates ulcers, abscesses and a series of evils any one of which can easily prove fatal.

DON'T PUT OFF sending for the free trial package. We send this to show how great our faith is in this cure. If we did not believe in it, we would not make this offer. Today is the best day you will ever have to send for it. Do your writing plainly, as there will be no mistake. Fill out coupon; it won't take a minute's time and mail it to us.
